Basaam Qasem

Full Stack Developer

Results-driven Full-Stack Developer with a diverse portfolio of successful web projects. Skilled in React, Next, and CSS, I specialize in developing responsive and scalable web solutions and excel in developing custom functionalities, delivering outstanding user experience, and ensuring smooth database integration.

Experience

○ 2023 - Present

Full Stack Developer

Led the development of passionbakes.org, a comprehensive e-commerce platform built from the ground up using shopify. Leveraged Shopify's capabilities resulting 25% increased sales by crafting a visually appealing and user-friendly website design. Implemented SEO best practices to improve search engine visibility and drive organic traffic to the site. Used data analytics tools to monitor website performance and track user behavior to further enhance sales and conversion rate.

○ 2022 - 2023

Green Doors Ltd, Luton

Software Developer

Directed Codebase enhancements implemented strategic changes to the codebase, improving functionality and ensuring alignment with evolving business requirement, optimizing performance and reducing the overall code size by 50%, enhancing system scalability and maintainability. Regularly liaised with the management team to report progress, discuss strategic decisions, ensuring a cohesive approach to project management

○ 2021 - 2022

Dovelp.com, London

web developer

Took project oversight responsibilities.

Demonstrated strong leadership by managing a development team focused on multiple MERN stack projects.

Led design and implementation efforts that emphasized collaboration and innovative solutions, consistently exceeding project goals and client expectations.
